

LYGARIA I – «ZEUS» COMPLEX

SPECIFICATIONS FOR THE ZEUS COMPLEX IN LYGARIA

Four (4) independent residences, with wood and tile roofing.

All residences have:

- Large private plot (minimum 500m²).
- Closed auxiliary spaces (storage) (30–40m²)
- Large covered verandas (approximately 20m²) with railing section made from glass so as not to obstruct the enchanting view.
- Inside doors of Italian origin and modern design.
- PVC frames on windows and doors of German origin (imitation wood), double-glazed windows, screens and electric shuttering. These frames are ideal for residences in close proximity to the sea.
- Verandas with wooden pergolas of exceptional design.
- Wooden railings at the borders made from specially treated wood.
- Oak wooden flooring in all the main bedrooms.
- Floor tiling in all the remaining rooms. First class quality tiles (60x60cm).
- High quality kitchens of exceptional Italian design.
- Bathrooms of the highest aesthetic design and construct, with shower and bathtub, all accessories, mirror and wooden furniture with sunken washbasin.
- Elegant fireplace from stone and marble in the lounge area.
- Heating with autonomous radiator system, hot water permanently available from a boiler fitted over the burner.
- Environmentally friendly solar-powered water-heater for economy during the summer.
- Modern wardrobes with sliding doors made from glass and internal lighting in all of the bedrooms.

- Audio/video entry security system linked to the main entrance of the complex for enhanced security and functionality.
- Pre-installation for the placement of air-conditioning machines and devices.
- Independent water tank (5m³) for greater autonomy.
- At least one exclusive parking space.
- Trees, bushes and grass suited to the local climate have been planted and an automatic watering system has been installed in all areas.

The complex has:

- Paved and lit internal access roads leading to each residence.
- Electronic access entrance for vehicles and separate entrance for pedestrians.
- Third generation biological cleaning for the needs of the complex.
